

2018-19 War Memorials Trust Grant Offers and Offers in Principle summary

This document lists the Grant Offers and Offers in Principle made by the charity through 2018-19.

This list does not necessarily exactly match the details in the Annual Report and Accounts because some grants may be offered but then cancelled or amended within the financial year. At year-end, which is the basis of the Accounts, the status of awards on that date is included. As such this document is referenced within the Annual Report and Accounts but to avoid confusion over grant values is not included within it. This is a change from former years but is designed to improve the accuracy of the Annual Report and Accounts whilst ensuring details of grants area available to those who are interested. In addition, it has reduced the size of the Annual Report and Accounts thus reducing the paper used when printing the document.
